**What it means to be an assessor**

Assessors, like all other elected officials, have been elected to represent the interests of their constituency. Holding a public office means maintaining the public trust. When a township's constituency elects an individual to be the assessor, they believe that person will establish a system of property valuation that will fairly, impartially, and equitably distribute the revenue requirements of local governments among the township's residents.

**Two Fundamental Duties of the Assessor**

The township assessor is responsible for discovering, listing, and determining the fair cash value of most property within the assessment jurisdiction and assessing said property at the statutory percentage of value.

- 1. *Determining market value.* All property is valued and assessed as of January 1 of the tax year.
- 2. *Assessing like property in a like manner - uniformity.* Establishing equitable assessments among like properties is an extremely important aspect of the assessor's duties because equitable

assessments assure that all township residents are afforded their constitutional right to equal treatment and equal taxation under the law.

**Purpose of the Assessment**

The purpose of the assessed valuation is to apportion the tax burden, as created by the taxing bodies (schools, counties, municipalities, townships) over all real estate according to its fair cash value.

The essence of being a township assessor: enormous responsibilities, extraordinarily high expectations, exceptional performance, unparalleled integrity, unwavering trust.

The Dorr Township Road District consists of all roads and bridges in the township that are not within incorporated municipalities. The road district is a public corporation like a township, but is a completely separate corporation, receiving its own tax dollars through its own independent line item on your McHenry County tax bill. State law requires townships to maintain their unincorporated roadways. Our goal is to provide the best possible roads and services at the most economical expense to our residents.

The Dorr Township Road District currently maintains 70 lane miles of roadway. The Township is located in central McHenry County, bordering Seneca, Grafton, Nunda and Greenwood Townships.

Among the duties of the Highway Commissioner are constructing and maintaining roads and bridges, snow and ice removal, removing debris, downed trees and any wildlife struck by traffic, storage of tools and equipment and installation and maintenance of traffic signs. The Highway Department also approves all driveway permits.

The Highway commissioner and staff are on call 24 hours a day to respond to snow, ice, flooding, accidents, illegal dumping, sign replacement and other emergencies. It is our job to listen to the need of the community that we serve. We welcome your input.
